DIVORCED WIFE GETS ESTATE

Will of Late Seth P. Snow Is Allowed, Despite Contest by Heirs

Decision of Judge Pratt in Suffolk County Probate Court the will of Seth P. Snow, leaving his entire estate to his wife as she died, has been allowed. Snow was a real estate broker, living at No. 5 Northway street. His wife, Frances J. Snow, died about three years before Snow's death. His heirs contested it, contending that the beneficiary was not in law the wife of the testator at the time of his death. The court denied the plea of heirs that the decedent be declared to have died intestate and denied also the claim of a creditor for administration.

OVERLOOK TWO DENOMINATIONS

Unitarians and Universalists Not Invited to Rockefeller Interchurch Luncheon

Unitarians and Universalists will be in attendance at the luncheon to be given in John H. Rockefeller, Jr., at the Olympic stadium, when plans of the Interchurch World Movement will be represented by him and other speakers. It was assumed that a few representative Unitarians and Universalists would be invited to the luncheon, but at headquarters, No. 4 Beacon street, it was announced that none of these denominations would be asked to participate with the movement. Rev. Dr. Albert C. Diefenbach, a well known Unitarian minister of Boston, said: "I condemn heartily and justly the Unitarian attitude which would exclude our denomination from participation in any church, because of difference of belief, no longer as the things the church as a whole is striving to do are the things which we also would do and would prefer to do together as a matter of efficiency, economy, cooperation, unity and spiritual power." Many denominational ministers also take objection to the omission of two denominations from the movement.

SOVIET UNEARTH'S PLOT IN SOUTHERN RUSSIA

San Antonio, Tex., April 15.—La Prensa today prints a telegram purporting to be from Governor de la Huerta of Sonora, denying an independence of the republic of Sonora.

Vose Player Piano

To fully appreciate the advancement of the player as a medium of musical expression one must first hear this Vose instrument. Patented features in tone production give it expression values not found in others.

Lack of expression in most players or, rather, lack of the features which enable one to play with expression make those players mechanical in tone.

The Vose player is so unlike them that a comparison always makes it the choice of musical intelligence.

A comparison—the played roll tells a stronger and more convincing story of its superiority than the written word—an upright piano and player in one instrument.

ASKS AID FOR POLAND

Mme. Adamowska, About to Return to Native Land, Appeals to Boston Friends

Mme. Antonette R. Adamowska, about to return to Poland, has made a last appeal to the public for aid to remedy conditions in her distressed country.

"In less than three months," she stated, "I hope to depart with my family from this happy, prosperous country to visit its complete antithesis—Poland—devastated by the great war and still shaken by severe fighting with Bolshevik Russia. While we long for a breath of our native air, we shrink in anticipation of all the horrors that we will meet our eyes. I know that we will see in Poland starving children, desperate men and women, for whom employment can be found, and who live among the ruins in villages overrun by dreadful epidemics of typhus, smallpox and tuberculosis. We will see overcrowded hospitals. The wounded have hardly any chance of recovery as the hospitals in Poland lack medical supplies, sheets and blankets and other articles of first necessity.

"We call to all my friends, to all the sympathizers with Poland to help me to become a link between the two countries to help of which I am joined by the most powerful ties. Let everyone who wishes Poland to survive send a gift in money or clothing or provisions and I will take them to Warsaw, where I will be able to look personally after their distribution. Please send contributions to the Polish Relief Headquarters, No. 40 Baylston street, Boston.

According to the police, this was her second escape from custody, on another occasion while being held for trial she eluded officers, they say, and at that time also was located in California.

The Belles—In All Leathers—One of Many Models

"I demand for myself absolute comfort in shoes which are at the same time smart looking, well fitting and long wearing, and I can't expect any other man to demand less."

Wm. O. Emerson

ON the day before Easter I visited every shoe store in town making a special study of the styles, the prices and the values being shown. I saw many fine shoes but I came back more than ever impressed with the fact that our stores are showing styles and values this season that simply cannot be equalled anywhere else.

I have been a shoemaker for more than 50 years and I know whereof I speak.

In all my experience I have never shown such a wide variety of lasts and patterns, such high quality of materials and workmanship at such reasonable prices. I have yet to find an equal of the Emerson Shoe at anywhere near the same price.

My policy of stamping a fair and square retail price, based on the actual cost of labor and materials, at the factory protects you against high prices and unfair profits. The Emerson trade mark on the sole is my personal guarantee of quality which I have rigidly maintained for over 40 years.

Visit OUR store. We will gladly show you our wide variety of models. You will not be asked to buy unless you are satisfied that Emerson Shoes will give you more for your money than you can get elsewhere.

Talent reports collections totaling \$4,000. Along with the report from that city came word to the Boston directors in charge of the fund that Manager Harwood of the Talbot Theatre bought a \$100 bond and intends to show to the citizens of the city the film entitled "Financing the Irish Republic."

North Adams is "over the top" with a total of \$1,000 and prospects of the amount reaching \$15,000, according to Chairman Andrew Keefe and J. O'Connell, secretary in charge of the drive in that city.

We have seen no such wonderful values this season as we offer in this sale of high-grade apparel. And think of getting such values so early in the season.

This is a large purchase, but, judging from past sales, we considered it wise to add purchases from other dealers, so that no one might be disappointed.

We have reduced many of the

correspond with these values.

VALUE

The Question of The Hour

Here at Morse's value has been a solved question for many years.

We would not maintain a manufacturing department requiring twelve tailor shops and a thousand workers if we were able to buy Morse values as good as we can make them.

Value means the same to the Leopold Morse Company that it meant to Daniel Webster.

"the specific quantity of another object for which a given object can be exchanged."

And the "specific quantity" must be the most it is possible to give at the price paid.

And so, Morse's make the clothes they sell you; Morse clings to its old established location in Adams Square, preferring high-powered values to sky-high rents; Morse knows that sooner or later Morse values will get you.

After all, nothing else counts. Morse values are based on facts and figures, not promises and platitudes.

IT'S WHITE AND \$1.10

For fifteen months NEW SAFETY PAPER has been open to investigation. Everybody is told to investigate and nearly everybody does investigate. In that lies the strength of NEW SAFETY PAPER, for nothing but a WHITE proposition can stand the light of investigation. Over 700 earnest, intelligent individuals have used their best judgment and investigated NEW SAFETY PAPER, and after being given the facts and seeing the paper demonstrated, over 700 became shareholders. They know that IT'S WHITE. They all believed that it was when the price was \$1.00. Now, they know that it is when the price is \$1.10, so the proved demand for the goods exceeds all expectations.

The following letter, from a distant State, is a good example of the morale among NEW SAFETY PAPER people:

"Enclosed find money order for One Hundred and Five Dollars (\$105.00) in exchange for one hundred shares of your stock."

"This hundred has laid in a savings bank for a couple of years and has earned a miserly 3 per cent. and I have a hunch it can't earn much less in New Safety Paper. I wish you success in your new enterprise."

By the time of late, before the certificate could be sent out for these shares, the price had advanced to \$1.10. Is it any wonder that the 3 per cent. is not happy?

If NEW SAFETY PAPER is good enough for 700 WHITE people to investigate and invest in, it ought to be good enough for you. If you want to investigate before the \$1.10 shares are all sold, there is no time like the present.

A month in NEW SAFETY PAPER is better than a year of bank interest.

SUGARS LOWER IN BOSTON

Local Market Not So Active;

Beacon Chocolate Higher

on the Curb

The Boston market turned irregular at a firm opening. The movement

here followed the New York trend.

But the recreational was not as pronounced as in the other market.

Sugars were neither as strong nor as active as before this week. Leaders

were Ceylon Hill, Highland and Elder.

They were strong as well as being rather active. The market was quiet

and did not move until the interest attendant upon yesterday's trading.

Coppers had a little better tone. There was little life to New England rails.

the morning were Atlantic States

as usual at half a cent above the
